JOB TO PERFORM: Strictly secret job. No field investigation required. Work inside your secret grand jury room only. An Executive Judge shall instruct you how to perform your work. Your identity will be held in absolute secrecy. You will be given a security ID name or SIDN and your name will be secretly held under the custody of the judge which he must deposit in a bank vault. The judge who will betray or disclose your name will be subject to removal from his position and will be liable for disbarment. This is a sacrificial job of citizens to serve their community to help get rid of lawlessness and government corruption. A Grand Jury is a group of private citizens acting under Grand Jury Instruction to collectively decide independently by secret ballot free from government control to investigate serious or capital crimes including government corruption punishable by imprisonment of 12 months or more and to file accusation in court against suspected offenders regardless of their rank and position in the government or in the community upon their finding of probable cause without need of government approval. Grand Jury Instruction and its empowerment will be officiated and issued by an executive judge immediately following the drawing of code numbers of the newly chosen grand jury members. A Grand Jury action is a sovereign act of the people. You get cases to investigate from tipsters in response to your advertisement in newspapers. Although a grand jury is composed only of 23 private citizens and blindly chosen by lottery, they wield more power than a thousand or more public demonstrators because they can secretly file their accusation in court without government approval by the use of the sovereign power of the people under Article II, Section 1 of the Philippine Constitution. Since grand jurors are private citizens, they cannot be fired from their existing job. The grand jury has nothing to do with court trials. Its function is mainly to secretly investigate serious crimes and to decide to file indictment in court. It can investigate as many cases it wishes to and indict as many probable crime offenders. Once the grand jury has filed its indictment in court, its job is done. Thereafter, each case will be pursued for trial in court by government prosecutors before another jury, called the **Trial Jury** of 12 private citizens. Applicants for grand jury membership are required to read the Rules of the Jury System as promulgated by the Supreme Court on _____. The heirs or next of kind of member of a grand jury who dies in the course of jury duty or arising out of jury duty is entitled to a monetary indemnity of two hundred thousand (P200,000) pesos. If incapacitated only, fifty thousand (P50,000) pesos payable to the juror, free of tax.

Enter your application in the Raffle Bin for the Grand Jury District Number where you wish to serve. The Clerk of Court must provide the raffle bins. This notice has been posted by the Clerk of Court.
